

THE ZOLA TRIAL.

Precautions Taken to Prevent Demonstrations in Court.

THE FRENCH AUTHOR HISSED.

HOWEVER, AS HE ENTERED THE COURT ROOM—ROCHEFORT RE-TORTS ON PEOPLE WHO MADE HOSTILE REMARKS—CHARGE AGAINST ZOLA TO BE LIMITED TO PASSAGE IN HIS LETTER DENOUNCING ESTERHAZY COURT MARTIAL—NO SENSATIONAL FEATURES DEVELOPED SO FAR.

PARIS, Feb. 7.—The trial of M. Emile Zola, who is being prosecuted by the government as a result of the letter which he wrote last December to the Aurore, strongly reflecting upon high officials connected with the Dreyfus case, opened to-day in the assize court of the Seine. The most keen public interest was manifested in the case. Hundreds of people surrounded the court, anxious to gain admittance. The police measures taken to insure order were most rigorous.

The crowds increased in number all the morning. The arrival of Henri Rochefort was the signal for shouts of "Vive Rochefort" and counter cries of "A bas Rochefort." Turning in the direction of the hostile cries, M. Rochefort shouted: "It would seem that with four of you at five francs apiece, the Dreyfus syndicate will not be ruined."

M. Zola, who arrived in a carriage shortly afterwards, was greeted with vehement shouts of "Conspuez Zola!" (spit upon Zola).

An individual who shouted "Vive Zola" was promptly hustled and suppressed.

The proceedings commenced at 1 p. m., under the presidency of M. Delagorgue, who announced that the court would be cleared if there was any demonstration.

Although the court was thronged, quiet was maintained owing to the presence of a company of Republican guards had been placed at the disposal of the judge to preserve order.

While the jury was being selected M. Zola entered the dock. He was pale. A few cries of "Vive Zola" were promptly suppressed by the vigorous protests of the majority of the audience.

After the reading of the indictment, the advocate general explained that the charge was strictly limited to the passage in M. Zola's letter denouncing the Esterhazy court martial.

Continuing, the advocate general said it was imperative to prevent the proceedings from wandering, and "thus playing into the hands of the accused, whose aim is to get a revision of the Dreyfus affair by a circuitous route."

The court decided to allow the accused to call evidence in support of the other charges contained in his letter, including the accusation which he made against Col. Paty du Clam and General Mercier, Boisdeffre, Billot and Pellieux.

M. Delagorgue read a number of letters of excuse, including one from the minister of justice, M. Darlan, announcing that the minister for war, Gen. Billot, had not received the authority of the cabinet to testify. M. Delagorgue also read a letter from ex-President Casimir-Perier saying he could not testify except as to facts subsequent to his presidency.

Col. Paty du Clam was then called and refused to testify.

M. Laborie urged the importance of his testimony, adding that unless the court ordered the witness to testify he might be compelled to demand an adjournment until the next session. Counsel also said he was not prepared to oppose a secret trial, if it was absolutely necessary. But, continued M. Laborie, the allegation that the matter they were discussing was connected with state secrets and the national defense was a mere joke.

The advocate general thereupon protested against the national defense being called a joke, to which M. Laborie hotly replied that he would permit no one, not even the advocate general, to cast suspicion upon his patriotism. (Cheers.)

The hearing of the case was adjourned at 5 p. m. There were no sensational incidents.

RESCUED FROM AN ICE FLOE.

CLEVELAND, Feb. 7.—Five workmen who had started to walk across the ice from the new water works crib, five miles out in the lake, were rescued last evening by the fire boat Cleveland from an ice floe, after an exciting experience. The men had started to walk ashore, and when a mile out discovered that they were on a detached ice floe, and rapidly moving away. After prolonged cries and waving of their coats, they finally attracted the attention of a skater near the shore, who telephoned to the fireboat. After a hard battle with the ice, the Cleveland succeeded in crushing her way through the heavy ice and rescuing the men.

GOING TO STARTLE EUROPE.

CHICAGO, Feb. 7.—De Wolf Hopper and John Philip Sousa are going to Europe to give American comic opera and American band music throughout the old world. All the members of Hopper's opera company, "El Capitán," and all the members of Sousa's band are booked for the trip. The start will be made in the fall, and both companies expect to be away the entire season of 1898-99. In consequence of this trip abroad the production of De Wolf Hopper's new opera will be delayed until some time in 1899.

A Never-die.

The "life-time" of Dr. Bull's Cough Syrup will never draw to a close. When a mother once uses it, she continues its use right along; because, she found, for curing cough, cold, croup and whooping-cough Dr. Bull's Cough Syrup unequalled by any other similar medicine. "I have used Dr. Bull's Cough Syrup, for ten or fifteen years in the family, for coughs and throat troubles caused by colds, and have found no superior article." Mrs. D. T. Clarke, 163 Congress St., Cleveland, O. Dr. Bull's Cough Syrup can be had everywhere for 25 cents. Dealers will say they have something else "just as good or better," because they want to make more profit. Don't be "taken in." Dr. Bull's Cough Syrup is the best.

200 BUILDINGS BURNED.

MADRID, Feb. 7.—Despatches just received from Manila, capital of the Philippine Islands, announce that 200 buildings, some of them of importance, have been destroyed by fire.

MR. WARD L. SMITH, of Fredericktown, Mo., was troubled with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America, but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and his continued use cured him. For sale by druggists.

MR. MASON'S PLAN.

For Selection of a Senator Endorsed by a Farmington Republican. To the Editor of the Intelligencer.

SIR:—As you have opened the columns of your paper for the discussion of the plans for the election of a United States senator, which was recently sprung by Hon. John W. Mason, of Fairmont, W. Va., and as I have been carefully reading the letters on both sides of this question, I can but say that I heartily concur with Mr. Mason's views on this very important question to the people of West Virginia, when we take into consideration the experience of our sister state of Ohio in her recent senatorial election. Indeed, we need not go so far from home for a striking example, but take our own experience on several occasions where the money of the aspiring candidates has had more weight and influence with our legislators than their own ability, qualifications or merits. And we often see nearly the whole session of the legislature taken up in wrangling over the election of a United States senator, under the dictatorship of the political manipulators and bosses, until the people have become heartily sick and disgusted with such work. I verily believe that the great masses of the honest and fair-minded people of West Virginia would heartily approve of some method of abolishing this evil, a method that would give all the people a voice, indirectly, the poor and the laboring man participating equally with the rich in the selection of a United States senator, which would remove the cause of so much complaint of our legislative bodies, and enable them to devote their time for which they are paid by the people to the work they were elected for. Of course, every intelligent person knows that according to our present laws the people cannot elect a United States senator by a direct vote, but by adopting Mr. Mason's plan they can meet in a convention composed of delegates selected by the people, where all shall have a voice who will do so, and elect, by a majority vote of that convention, who they would like to have represent them in the United States senate. How could any fair-minded and patriotic American citizen, who is willing that the people may rule themselves, object to this method. On the other hand, does it not appear that those who would oppose such a fair method to all the people, would assume to take the reins of government out of the hands of the people and establish a monarchical form of government, wherein they could establish themselves as monarchs, and thereby advance their own political and financial conditions, to the detriment of the interests of the people. I hope to hear through your columns from Republicans throughout the state upon this very important question, and trust that all Republicans will study Mr. Mason's plan, which I think very commendable. W. H. VEACH, Farmington, W. Va., Feb. 7.

WHAT IS THIS DISEASE CALLED DYSPEPSIA?

Like a thief at night, it steals in upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is feeling like a heavy load on the stomach, sort of faint, all-gone sensation at the pit of the stomach which food does not satisfy. Eyes are sunken, the hands and feet become cold and clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; the urine is scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with pain in the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated for a liver complaint, some for dyspepsia, others for kidney disease, etc., etc., but none of the various kind of treatment have been attended with success.

Now, the Shaker Digestive Cordial causes the food eaten to be digested. This will cause an appetite for more food and this being digested will result in an increase of strength, an increase of flesh and an increase of nerve power.

The tired, weary feeling will give way to vigor and courage. The pale, thin and emaciated will recover their color and plumpness, because red blood and fat are the result of properly digested food. A ten cent trial bottle will produce a result. Its good effect will be realized at once. You will not have to take a dozen bottles to find out if it is doing you any good. Try it and then give praise to the Shakers of Mount Lebanon, New York, for the relief that you obtain.
